

Agile Scrum Guide

Synthetic sample knowledge-base document for local RAG testing

Overview

A sample guide to product backlogs, sprints, daily coordination, reviews, and retrospectives.

Key Information

1. A product backlog contains prioritized work that may be delivered by the team.
2. A sprint is a fixed period during which the team works toward a defined goal.
3. A sprint review demonstrates completed work and gathers feedback from stakeholders.
4. A retrospective focuses on improving the team's process and collaboration.

RAG Test Notes

This document is intentionally concise and contains distinctive terms so that semantic retrieval can identify it when a user asks a related question. It is sample content and should not be treated as professional, legal, medical, financial, or regulatory advice.
