

Customer Analytics Guide

Synthetic sample knowledge-base document for local RAG testing

Overview

Sample customer analytics concepts including segmentation, retention, churn, cohorts, and lifetime value.

Key Information

1. Segmentation groups customers using meaningful attributes or behaviors.
2. A cohort groups customers who share a common starting event or time period.
3. Churn measures customers who stop using a service or meeting a defined activity condition.
4. Customer lifetime value estimates the economic value associated with a customer relationship.

RAG Test Notes

This document is intentionally concise and contains distinctive terms so that semantic retrieval can identify it when a user asks a related question. It is sample content and should not be treated as professional, legal, medical, financial, or regulatory advice.
