

Information Governance Guide

Synthetic sample knowledge-base document for local RAG testing

Overview

Sample guidance on classification, retention, access, ownership, and lifecycle management for information.

Key Information

1. Information classification helps determine the level of protection required for a dataset or document.
2. Retention schedules define how long information should be kept before approved disposal.
3. Data owners are responsible for defining appropriate use and access requirements.
4. Governance processes should support traceability, accountability, and consistent handling.

RAG Test Notes

This document is intentionally concise and contains distinctive terms so that semantic retrieval can identify it when a user asks a related question. It is sample content and should not be treated as professional, legal, medical, financial, or regulatory advice.
