

Product Management Guide

Synthetic sample knowledge-base document for local RAG testing

Overview

Sample product practices for discovery, prioritization, roadmaps, experiments, and metrics.

Key Information

1. Product discovery investigates customer problems before committing to a solution.
2. Prioritization balances value, effort, risk, dependencies, and strategic alignment.
3. A roadmap communicates intended outcomes and direction rather than guaranteeing every feature.
4. Product metrics should connect user behavior to measurable business or customer outcomes.

RAG Test Notes

This document is intentionally concise and contains distinctive terms so that semantic retrieval can identify it when a user asks a related question. It is sample content and should not be treated as professional, legal, medical, financial, or regulatory advice.
